AMENDMENTS TO THE SPECIFICATION

With the amendments to the specification noted below, no new matter has been introduced. Please amend the specification as follows:

Please amend Paragraph [0036] as follows:

Configuration module [[510]]430 then forwards the particular resource ID 510 to deployment module 440. Deployment module utilizes the received resource ID 510 to retrieve the appropriate application resource for the particular computing entity 315(1) from application resources database 490. The resource (e.g., 140(1)(1) . . . 140(1)(K)) are then forwarded to computing entity via configuration module 333(1). Configuration module 333(1) on computing entity 315(1) receives the resources and installs them on computing entity 315(1).
